## Student Art & Heritage Workshops 2012-2013

### DESIGNING DOLLARS & MAKING MONEY

Students have the task of designing a new currency that meets the economic needs of the entire world community. They'll talk about the role of money and look at samples from countries around the world, choosing what important images and information should be included in the design. They'll also make a special wallet for their newly minted currency. Grades 2-8.

### *Birds of a Feather*

Kentucky artist John James Audubon filled countless pages with his drawings of both birds and animals in the natural setting of a new frontier. Students will sharpen their drawing skills to fill a take-home book with Audubon-like creatures in their natural habitat. Grades 2-5.

Our workshops incorporate the Elements of Art and the Principles of Design. Workshop objectives are at [www.hopewell.org](http://www.hopewell.org) along with brochure and info on transportation grants.

### Drawn from the Earth: The Art of African Senufo Cloth

Known for their hand-woven and hand painted cloth thought to have special protective powers, Senufo mud cloth uses the animals and ceremonial dances of the Ivory Coast to tell the stories of a culture. Students will create their own mud cloth using the designs and shapes of this West African art form. Grades 2-5.

**Barrelmania Returns!**  
Thursday, September 27, 2012  
5-7 PM at Hopewell Museum

**Barrelmania** is both a salute to the talented artists in our community and also funding for the Secretariat Festival. Barrels done by community artists help sponsor the Festival and will be auctioned off to the highest bidder. Come see the barrels and stay for all the fun—there will be food and drink, too!
